

VNCproject

Enterprise Project Management Software

VNC – Virtual Network Consult AG

VNC is the leading vendor of an integrated stack of collaboration and communication products for organisations who prefer to go with software that is based on open standards: VNClagoon.

About us

VNC – Virtual Network Consult AG, based in Switzerland, Germany and India – is a leading developer of open source based enterprise applications and positions itself as an open and secure alternative to the established software giants.

With the VNClagoon software stack, VNC, with its global open source developer community, have created an integrated product suite for Enterprise, SME, Governments and other Organisations, characterised by high security, state-of-the-art technology and low TCO.

The VNClagoon software stack consists of a variety of integrated products for seamless communication and collaboration, such as messaging, video conferencing, email, groupware, task & project management, file sharing, channels, and more. VNClagoon is a leading alternative to closed source and / or SaaS-only applications like Microsoft Teams, Zoom, WhatsApp and others.

The impressive list of VNC customers, who are using one or several of the VNClagoon components and products, demonstrates the solidity of the VNC concept: the future of modern software will no longer rely on closed source!

VNCproject

Enterprise Project Management Software

VNCproject is the perfect tool for keeping control in complex projects.

The browser-based, open and fully customizable solution leaves nothing to be desired: VNCproject combines issue, task and ticket management, scheduling, progress monitoring, Gantt charts as well as time tracking, wikis, cost control, team management and powerful project planning features. Having all these different features in one single project management tool enables you to work as fast and efficient as never before.

VNCtask

Easy to use Task Management Software

Create tasks, manage them, get organized – all in one tool.

Simple and easy.

Get started quickly by installing the VNCtask App and you're ready to go.

Create your tasks in just a sec.

Just tap a few times and your new task is there.

With Task Name, Start and Due Date, Priority, Project, User, Repeats, Description.

Manage your tasks.

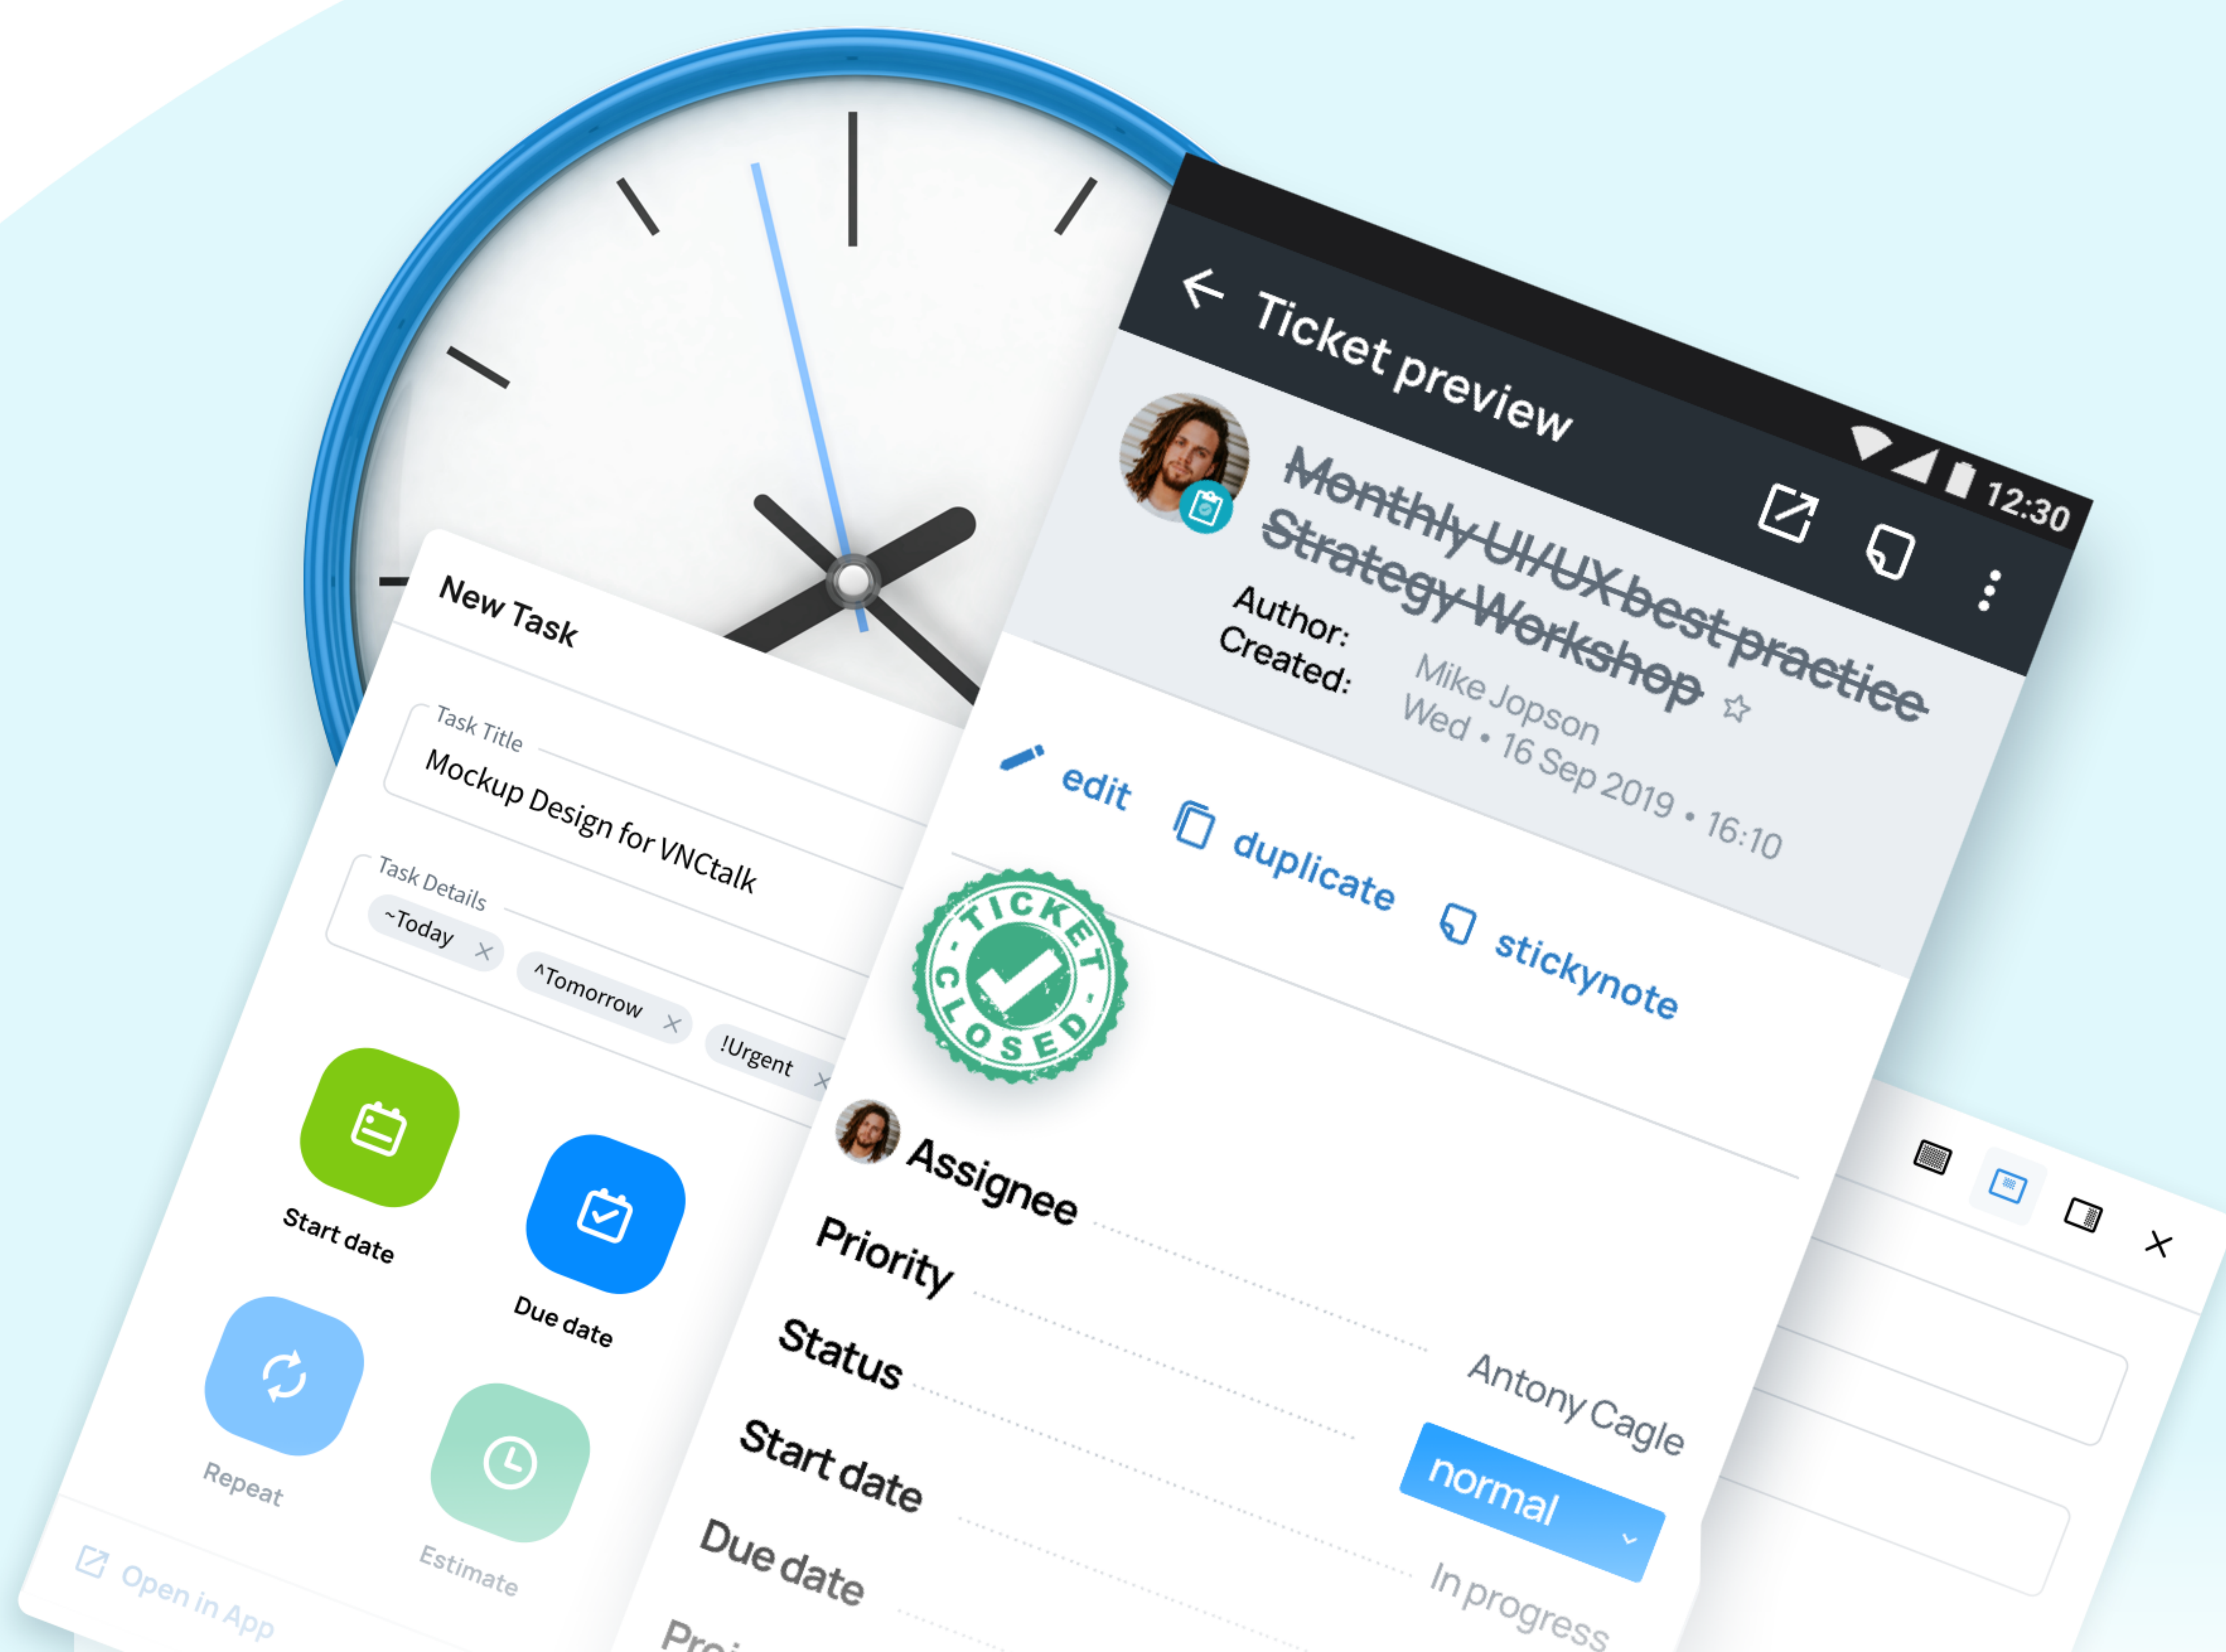

Set reminders, view, tag and sort your open tasks, change their status, add more details and comments – and get your work done.

Complete your tasks with just one click.

Get organized.

Work with complex task lists and collaborate with your team members.

Get things done!

Create tasks, manage them, get organized – all in one tool.

VNCtask is a very easy-to-use task management tool that you can access in your VNCtask App or directly in your browser. It helps you to manage each task through its life cycle by involving planning, tracking, and reporting.

VNCtask can help you to achieve your goals in time.

Task Management

Create new tasks on the fly with few details like Start Date, End Date, a Comment – and that’s it.

Advanced Search

Ssearch tasks via projects, users, fields, dates and also tags.

Notifications

Stay informed! Get notifications via email, in your browser or on your mobile device.

Recurring Tasks

Create recurring tasks with predefined frequencies or at a specific date.

Task Settings

Set reminders, notifications or account details according to your preferences.

VNClagoon Integration

Create your tasks directly from VNCTalk, VNCmail and more.

VNCtask helps you to monitor your tasks through their various stages from start to finish. This involves actively making decisions for your tasks to accommodate changes that can occur real-time, with your end goal being the successful completion of your tasks.

“VNC challenges the software giants that are oppressing the market with their expensive, inflexible and uninventive proprietary solutions. It’s time for open-source applications to finally replace them. We use VNC’s collaboration tools ourselves, including VNCtalk and, most recently, VNCchannels. The tools have made the transition to working from home extremely easy. The comprehensive VNClagoon product suite is a real highlight in terms of functionality and operation.”

Alain Blaes, Managing Director of PR-COM Beratungsgesellschaft für strategische Kommunikation mbH

PRCOM

“The federal state church intranet should strengthen communication and cooperation within the state church. The basic aim is to provide all full-time employees and volunteers of the regional church with access to an innovative, modern and unified communication and collaboration infrastructure. The VNClagoon products are particularly well suited for this, because they allow us as a state church – in addition to the many functionalities provided – the possibility of customization options to individual needs within our church. “

Tabea Langguth, Project Manager
Landeskirchenweites Intranet, EKBO

EVANGELISCHE KIRCHE
Berlin-Brandenburg-schlesische Oberlausitz

“VNC and DFB GmbH have been working together intensively for many years. We want to continue and expand this. The DFBnet mailbox developed and implemented by VNC has enormously accelerated and simplified our internal communication. With this, we see ourselves well prepared for future requirements.”

Steffen Iredi, authorized signatory at
DFB GmbH and responsible Director
Technology & Operations

“My team and I are very thankful for being able to count on the professional and sophisticated VNC team. VNC has supported us with a series of important projects, always exceeding our high expectations.”

Marius Hjelset, Project Head Hosted
Services, Vodafone Group
